

**LEGAL NOTICE**

**STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA.**

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Hearing Room, 1<sup>st</sup> Floor, LaSalle Building, 617 North 3<sup>rd</sup> Street, Baton Rouge, Louisiana, at 9:00 a.m. on **WEDNESDAY, APRIL 22, 2009**, upon the application of **PETROGULF CORPORATION**.

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of Orders pertaining to the following matters relating to the **DB-5 Sand, Reservoir D**, in the Patterson Field, St. Mary Parish, Louisiana.

1. To establish rules and regulations and to create a single drilling and production unit for the exploration for and production of gas and condensate from the DB-5 Sand, Reservoir D.
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each separate tract sharing in unit production on a surface acre basis of participation.
3. To designate Petrogulf Corporation as operator of the proposed unit.
4. To designate its Comeaux No. 3 Well as unit well for the proposed unit at the location shown on the plat submitted with the application.
5. To provide that any future substitute and/or alternate unit wells drilled to the DB-5 Sand, Reservoir D, should be located in accordance with the provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
6. To provide that the Commissioner of Conservation should be authorized to reclassify the DB-5 Sand, Reservoir D, by Supplemental Order without the necessity of a public hearing if the producing characteristics of such reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation.
7. To consider such other matters as may be pertinent.

The DB-5 Sand, Reservoir D is hereby defined as being that gas and condensate bearing sand encountered between the depths of 16,292' and 16,412' (electrical log measurements) (16,264' and 16,380' - tvd) in the Petrogulf Corporation-Paul J. Comeaux No. 3 Well, located in Section 57, Township 15 South, Range 11 East.

A plat is available for inspection in the Office of Conservation in **Baton Rouge and Lafayette**, Louisiana.
